## Vehicle in construction

### Erdmann & Rossi – BMW 319/1 streamliner coupé (1936)

One of our licensees is currently producing an original licensed replica of a fantastic Erdmann & Rossi streamliner coupé based on a BMW 319/1 in its original colour of black. Back in the mid-1930s, the car had a futuristic appearance. Only a few photographs of the original vehicle, which was lost during the Second World War, still exist.

The chassis is currently being restored and a model for restoring the body is under development. This has involved scanning a similar vehicle to be able to take dimensions accurate to the very millimetre. Historical materials, including nitrocellulose paint, will be used during the reconstruction.

Step into this spectacular project today and become the proud owner of a magnificent unique specimen. The contract is concluded exclusively with our licensing partner René Große Restaurierungen GmbH & Co. KG.

Chassis	Bayerische Motorenwerke, Munich
Body	Erdmann & Rossi, Berlin
Design	Streamliner coupé
Type code	319
Year of construction	1936
Construction period for type	1935 – 1937
Length/width/height	3900 mm / 1440 mm / 1550 mm
Unladen weight	850 kg
Engine/type	4 cylinder in-line engine
Power	45 HP
Known vehicles	Individual piece in this design
