Your Erdmann & Rossi - your chassis with a body that is unique in the world

“Your Erdmann & Rossi” is our offer for owners of historic chassis: turn your chassis into an automobile that is a global one-off.

Our licensing partners fit the original replica of a historical Erdmann & Rossi body to your chassis.

For example: bring an original chassis of a Mercedes 170 (W 15) and one of our contracting partners will reconstruct the streamliner coupé above for you, just as it appeared at the Berlin Automobile Exhibition in 1933. The original vehicle generated a great deal of attention at the time, and was one of the first medium-sized drivable cars with streamlined shape. Unfortunately, the original has been lost.

Price: on request.
